AlpiConsult Stones - Marco COSI (MC) is a 30 years experience, Italian International Mining-Marketing-Developing Consulting Entity, mainly operating in Dimension Stones, Construction Materials and Industrial Minerals sectors.

MC worked in more than 55 countries in all continents, mainly in Africa, EU and Asia. He operates in several mining areas: exploration, mining, marketing, project and reserve-resource evaluation reserve-resource calculation(JORC and PERC), institutional building, promotion, SME and Community Development, Environment, Value Chain Analysis, Risk Analysis etc.. Moreover he also operated in PSD (Private Sector Development), Institutional Capacity Building, Regional Integration, Project and Sectoral Evaluation, Country Project Evaluation and Monitoring, M&E Projects, Strategic Planning, Project Evaluation, Industrialization and Mining diversification projects in many developing, and in transition countries.

MC took the Master Degree in Mining and Structural Geology at University of Padova (Italy) in 1978 In particular MC is a well-known Dimension Stone Expert in the International Community, also acting as Competent Person.

MC is associated to Italian Council of Geologists and Member of European Federation of Geologists(EFG N. 1090) , Australasian Institute of Mineral and Metallurgy (AusIMM N. 319244) , Afristone and Jostone. Since 2014 he's also co-opted member of PERC (Pan-European Reserves & Resources Reporting Committee) and Coordinator of Dimension Stones Committee (www.vmine.net/PERC/)

Since 2007 MC, among others, carried out some high profile Due Diligences and CPRs, mainly as regard DS and IM, CM, for some Indian, Chinese, Indonesian , HK, EU and Turkish companies interested in equity financing and new partnership with large Mining Groups and/or with International Private Financial Investment Institutions (e.g Credit Suisse) and for Stock Exchange Listing and the AIM in general in UK (Bloomfield Ltd. , Religare Ltd. – London Mineral market) and HK (BMI Technology, and Roma Oil Company - HK)

AlpiConsult Stones - MC is dedicated to excellence in the provision of high-quality consulting and technical assistance services to private companies, public and private institutions, financial – equity development Groups and Institutions, private sector organisations, communities and consulting companies for the Mining areas above listed, mainly for :

In particular, as regard Dimension Stones, Construction minerals and Industrial Minerals, It operates in Arab and Middle East countries (Oman, Palestine, UAE, Bahrain, Kuwait, Jordan, Qatar, Yemen, Saudi Arabia, Tunisia, Sudan and etc.), EU, African (more than 30 countries) American (Jamaica, DOR, Canada and Brazil) and other Asian Countries (Pakistan, India, Indonesia, China, Hong King), working for Private Companies & Groups and for International and National Institutions (World Bank, UNIDO, EU, ACP, CDE, IFAD, TRADECOM, GSMRB Yemen, NRA-Jordan, etc.).

Finally MC also collaborated with large Mining Companies (Equinox, Lumuwana Minerals, Phelps Dodge, BBU, Agip Mining, etc.) in geo-exploration projects and in geo-structural and geomechanical evaluations for gold, copper and Uranium exploration prospects.

MC, before starting his individual consulting work in 1987, since 1980, was employed in AGIP S.p.A., AGIP MINIERE S.p.A. AGIP NUCLEARE S.p.A. and AGIP Mining Zambia Ltd. (ENI Group) as junior and senior geologist (from 1980 to 1987) in mining research and project development for gold and uranium in Europe and African countries.
