STONECHANGE 2016

FINAL PROGRAMME

14th June 2016: PERC Training Course and STONECHANGE 2016 arrival day (see logistic and info documents)
15th June 2016: PERC Training Course and STONECHANGE 2016 arrival day (see logistic and info documents)

- 09.00-09.30: PERC TRAINING COURSE Registration and welcome coffee
- 09.30-17.30: PERC TRAINING COURSE on "Mineral Standard Reporting" (see related doc.)

16th June 2016 - STONECHANGE 2016 (day 1)

- · 08.45-09.30: Registration
- · 09.30-10.00: Opening Session Official welcome speeches
 - · IMM President welcome
 - · Euroroc e/o EFG e/o PERC
 - · Comune di Carrara, Regione Toscana e Prov. Trento
 - · ACP Representative (Mr. Emagna)
 - · Programme presentation
 - · UNDP
- 10.00-10.30: Technical Opening Session EU and local Regulators speeches & presentations
 - EU Commission Slavko Solar o (contatto D. Franks): Introduction of EU Initiatives and Supporting Programmes to Mining, sustainability, Environment and Heritage
- · 10.30-11.00: Coffee Break
- 11.00-12.30: SESSION I Institutional Programs and Initiatives to support the necessary sustainable development of the Quarrying industry Chairman Daniel Franks (UNDP)
 - "The ACP-EU Minerals Development Programme "Supporting the sustainable development of dimension stones, industrial minerals and construction materials in Africa, the Caribbean and the Pacific (UNDP and ACP Delegates) - 40'
 - The Sustamining Project (EU-Horizon 2020): towards optimization of Natural Stone extraction (MIRO, CTM, AITEMIN)-15'

- The necessary sustainable development of the Dimension Stone industry, a very unique and particular industry that is changing its old historical features (Marco Cosi- AlpiConsult Stones) 15'.
- 12.30-14.00: **SESSION II International Reporting Standards in the Mining Industry. A new entry: the Natural Stone industry -** Chairman Mr. Steve Henley (PERC Board and Resource Computing International Ltd. for Mining)
 - PERC-Pan European Resources-Reserves Reporting Committee, the first international mining standard to officially consider Dimension Stones (Neil Wells – PERC Deputy Chairman) - 10'
 - The Dimension Stone Industry in Asia regions and relation to AIM and Standard Reporting (Derek Chan BMI Technical Consulting Ltd. Hong Kong) 15'
 - S.Tuboh (Sumatra- Indonesia) case study for marble standard reporting and resourcesreserves estimation. Previsional quality and recovery rate evaluation: an help from generic graphic softwares, 3D geomodelling packages and from a dedicated tessellation software (Ermanno Roman – Tethys, Italy) - 15'
 - A parametric approach to the geological exploration of Dimension Stone deposits: the DS Suitability Index (Giuseppe Nirta Furesi Livi Nirta Geological Bureau, Italy) 15'
 - The detailed geological field analysis as key tool for the Resources-Reserves evaluation according to the JORC Code 2012 standard: case studies from China and Malaysia (Sergio Matteoli Geofield s.r.l., Italy) 15'
- · 14.00-15.00: Lunch
- 15.00-16.30: SESSION II (continue) and SESSION III Governance and Policy Making for a new Sustainable Natural Stone sector Chairman Mr. Prof. Eberhard Falck
 - Modernizing the mining operations by a new sustainable approach in the evaluation of marble resources, with particular reference to Sivec marble quarry in Macedonia (Mice Trkaleski- Chief geologist of Mermerem Kombinat Co., Macedonia) - 15'
 - Advances in 3D geological modelling Implications for the stone industry (James Dendle, James Haythornthwaite SRK Consulting UK) 15'
 - Mineral quarrying and processing in Carrara District: regulatory framework and production assessment (Antonino Criscuolo – Head of Quarry Dept. of Carrara Municipality) - 15'
 - The future of CE Marking in the Dimension Stone sector: contradictions and solutions (P. Primavori) 15'
- · 16.30-17.00: Coffee Break
- 17.00-18.30: SESSION IV New modern technologies for a more sustainable Natural Stone industry.

 A key support to increase its sustainability and performance Chairman Francisco

 Javier Fernandez (Director of Centro Tecnologico del Marmol- Chegin, Spain)
 - Datamine Solutions for Industrial Minerals and Construction Materials, including Dimension Stones (Ved Sharma – Director of Datamine Software Ltd., UK) - 15'
 - Underground marble mining: a new model of chain saw that could help the improvement of this new mining method for a better selective mining and waste minimization in the marble quarrying (Giulio Milazzo – Benetti Macchine s.r.l., Italy) - 15'

- Optimization of Dimension Stone extraction from fractured rock mass: a computer method to assist DS quarry evaluation and production planning (Steve Henley-Resources Computing International Ltd., UK) 15'
- RPAS aerial photogrammetric applied to survey of Quarries (Daniele Moya Geoworks S.r.L., Italy) 15'
- A new method to contribute to the wastage minimization in Dimension Stones quarrying: new technology to resin highly fractured stone blocks (Prometec s.r.l., Italy) 10'

17th June 2016 - STONECHANGE 2016 (day 2)

- 09.00-10.30: SESSION V (in connection with Session IV, too) Sustainability: Selective Mining,
 Waste Management, Environmental Impact Reduction, Ethical Conduct are the next
 future priorities for a new Sustainable DS Industry Chairman Markku Iljina (Board of
 European Federation of Geologists)
 - Dimension Stones and Environmental Sustainability through waste recovery: how should we pay attention to the "costs" of the process. A case history. (Grazia Signori – Stone Test Laboratory "Marmoteca" Verona, Italy) - 10'
 - Quarry Design for a more sustainable quarrying sector: considerations for dimension stones (Ruth Allington – GWP LLP., UK) - 15'
 - New ways to use the territory developing modern sustainable mining projects. First project in the world for the natural underground "hypogeous cooling storage" under controlled environment Rio Maggiore limestone mine (Eng. Fabrizio Conforti Tassullo S.p.A, Italy) 15'
 - Recycling of Natural Stones slurries: an analysis through the environmental and economic indicators (Cristina Rabozzi Environmental Consultant, Italy) 15'
 - Building durable relationships between quarries and commodities Social licensing in the Natural Stone industry (Prof. Eberhard Falck - Germany) - 15'
- 10.30-11.00: Coffee Break
- 11.00-12.30: SESSION V (continue) and Session VI Attractive Materials and Historical DS Districts: an Opportunity of Investment and Development Chairman Mr. Mark Howson- Mineral Resources Professional Ltd.- UK / PERC Board
 - . People, planet, profit; maintaining ethical sourcing principles in a profit driven context (Simon Goude Ethical Stone Company Ltd.- UK) 15' SESSION V
 - Botticino: from "Marble" to Commodity Impact, Perspective and Innovation with the rapid change of the Global Market (Giuliano Ghirardi MARMI Ghirardi s.r.l./Associated Confindustria Marmo, Brescia- Italy) 15'
 - Terrestrial Laser Scanning for underground marble quarry planning: comparison of multitemporal 3D point clouds (Prof. Matilde Oliveti - Univ. of Siena, Italy) - 15'
 - The contribution of structural-geological investigations to evaluate marble deposit geometries and mechanical properties: the example for the Apuan Metamorphic Complex that include the world famous Carrara marbles (Prof. Paolo Conti, Centre of Geotechnologies, Univ. of Siena, Italy) 15'
 - Mines & mineral resources in Khyber Pakhtunkhw Govt.(Pakistan): investment opportunities and business potential with particular regards to Industrial Minerals and Construction Materials (MMIDA Association KP Govt., Pakistan) and

Other Stone quarrying Investment opportunities in EU and worldwide: an overview on key dimension stone quarry projects, operating and "grass roots". (Various printed document distributed to participants.)

12.30-13.00: **Q & A and Closure Ceremony**

· 13.00-14.15: **Snack Lunch**

14.15-17.45: FIELD TRIP to Carrara Marble Quarries
